**\*Procedures**

1. The customer needs to pay a \$25.00 application fee to the City of Bedias and fill out an application for sewer service. If no sewer tap exists, the customer will need to pay for a sewer tap and sewer lines to be installed.
2. If a new sewer tap is required, the customer needs to hire a licensed plumber/contractor capable of performing the full scope of work. The licensed plumber/contractor must submit a proposal for sewer and water service to the Bedias Water Company. After the Bedias Water Company has approved the proposal, installation of sewer and water connection hookups and a water meter may begin.
3. The Bedias Water Company will then inspect the sewer lines and connections after installation to see that it meets the City standards. Then at that point, the City would approve sewer service if the installation standards are met. All sewer costs (application, installation, connection fees, deposits, i.e.) are at the sole expense of the customer.
4. The customer also will apply to the Bedias Water Company for water service. All of the procedures and regulations of the water company must also be met.
5. The City will inform the electrical service provider that electrical service can be installed once sewer and water service has been approved. No electrical service will be approved until sewer and water service has been approved.

**SEWER REGULATIONS:** The City only provides sanitary sewer service to the public. This service is limited to the collection, treatment and disposal of waterborne human waste and waste from domestic activities such as washing, bathing, and food preparation. This service does not include the collection, treatment or disposal of waste of such high concentration characteristics that it cannot be processed by the City's state approved wastewater treatment plant within the parameters of the City's state approved wastewater discharge permit.

This service does not include the collection and disposal of storm waters or run off waters, which may not be diverted into or drained into the City's collection system.

The customer will be responsible for the maintenance and repair of the private sewer service facilities on their property including any private pumping systems.

**CUSTOMER AGREEMENT:** By signing this application for sewer service, I agree to comply with the City's rules and ordinances. I agree to prompt payment of all sewer and water bills for the service address printed above and understand that partial payments will not be accepted. I agree to remain responsible for all sewer and water bills for this service address from the date service is started until the date service is terminated. I understand that service will not be terminated voluntarily until I request it in writing.

**ENFORCEMENT:** If the customer fails to comply with the terms of this service agreement, the City shall, at its option, either terminate water and sewer service or properly maintain the sewer service connection. Any expenses associated with the enforcement of this agreement shall be billed to the customer.
